## Core Competencies

Former WHO intern

## Professional Summary

Hey, my name is Xian. I am a UI/UX designer and full-stack javascript developer. My tech stack includes, MongoDB, React, Express, Nodejs, Nextjs, Gatsbyjs, Sanityio, Bootstrap, Tailwind CSS, Git. I am able to bring user experience, visual design, and web development altogether.

## Work Experience

### FREELANCER

Freelancing UI Designer and Frontend Developer 2018-present

- I am able to provide UI/UX design and then develop the design for the client.

### WHO INTERN

World Health Organization 2012.6- 2012.9

- I took an internship in World Health Organization which is located in Geneva, Switzerland for 3 months. My research area was that how health-related news, especially pneumonia and diarrhea had been reported by the media compared with HIV-related news reportage. The internship was sponsored by the ERASMUS program.
